## EXPERIENCE

---

### Founder's Office, GTM & Customer Success

Jan 2026 - Present

Superjoin (*AI Excel agent for finance teams; backed by Better Capital*)

*Bengaluru, India*

- Built the outbound motion from zero (Sales Navigator, Apollo, Instantly, n8n), driving **10–20 qualified demos/month solo** and AI Copilot's **first 3 paying customers** from CA firms and merchant banks.
- Co-own customer success for a **\$15K MRR product** with one engineer: answer customer issues, decide what gets fixed first, and pitch with the founders to Heads of RevOps and finance leaders.
- Built an internal dashboard that pulls **Stripe** billing, **PostHog** usage, **Intercom** support and **Slack** into one place, giving the team a single live view of revenue, product usage and support load.
- Own Superjoin's **Intercom Fin** support agent: wrote the product knowledge base it answers from and monitor its live responses to close gaps, deflecting routine tickets from engineering.
- Own evals for **DRHP CircleUp** on Superjoin's agent orchestration platform, setting the matching rules and running loops between two AI models to verify **6,800+ figures across 3 IPO prospectuses**.

### Founder's Office Intern, RevOps & Strategy

Sep 2025 - Jan 2026

Zenskar (*B2B revenue automation; backed by \$6.5M from Bessemer Venture Partners*)

*Bengaluru, India*

- Built an **intent-mapping engine** (Airtop + Make.com) scraping LinkedIn, Reddit and Twitter for new CFO/VP Finance hires, piping real-time ICP alerts into Slack.
- Architected warm-intro automation (Sales Navigator + Apify + Clay) mapping the founder's and investors' networks to active enterprise deals, accelerating AE close cycles.
- Ran weekly RevOps reporting on Outplay, tracking demos booked, reply/connect rates and alt-domain deliverability across the BDR team.
- Drove the **highest LinkedIn outbound registrations on the team** for the CFO Exchange conference in San Francisco.
- Cut manual CRM work by **60%+** via Clay enrichment automations; solved cross-domain de-duplication on HubSpot.

### Chief of Staff

Aug 2024 - Jul 2025

CodeRound AI

*Bengaluru, India*

- Reached **4000+ executives** (VC partners, YC founders, CTOs) via cold email, LinkedIn and outbound calls, driving **12+ demos** and landing the company's first paying customer.
- Ran candidate interviews up to **INR 80 LPA**; managed client ops for **30+ VC-funded startups** including Sarvam AI and Nurix AI.

## SKILLS

---

### GTM & Operations

Outbound, ICP definition, enterprise sales, customer success, RevOps

### Sales Stack
